ASSIGN LEAN CANVAS

Problem	Unique Value Proposition	High-Level C	oncept	Solution	Customer Segments
Spending Bitcoin as a team sucks! Individualized: Most Bitcoin wallets are designed for individuals. Difficult: A team would have to transfer Bitcoin to an exchange or P2P market and convert it to local currency, before spending from their local bank or money account. Expensive: High conversion fees and exchange rate markups are common with Exchanges and P2P traders.	Where teams spend Bitcoin, fast, low cost and easily.	Bitcoin paym teams.	ent for	Available on the Web, iOS, and Android.	Sole proprietorship, Startups, SMEs. Team size: 1 - 10.
Growth Channel	Key Metrics	Existing Alte	rnatives	Early Adoptions	Unfair Advantage
